

More booked treatments. Fewer no-shows. Less front-desk busywork.

AI systems that capture every lead, kill no-shows, and rebook the clients you already have — built, run, and managed for you.

WHERE THE MONEY LEAKS

- New leads sit unanswered while they book somewhere else
- No-shows and last-minute cancels burn your calendar
- Clients finish a treatment and never get booked for the next

WHAT I BUILD FOR YOU

- **Reply to every lead in minutes**, personalized, and book them in
- **Smart reminders + one-tap rebooking** that cut no-shows
- **"You're due" re-engagement** that fills the calendar from existing clients
- Runs on the tools you already use. You don't lift a finger.

A client is worth thousands over repeat visits, and you pay to earn every lead. Recover a few no-shows and rebook a handful of clients a month and the system pays for itself many times over. You're not buying software — you're buying booked chairs.
